PROFILE

I am looking to join a small, to medium sized company, where I can be on a team of developers, working on a well-defined product. In my current position I am one developer working on several applications, and in my next position I hope to reverse that ratio.

Please visit my online portfolio at www.petrodehnal.com for work samples and more.

TECHNICAL SKILLS

FRONTEND DEVELOPMENT

HTML5 • SASS • AngularJS
Javascript • Gulp

GRAPHICS DEVELOPMENT

Photoshop • Illustrator

BACKEND DEVELOPMENT

NodeJS • MongoDB
ElasticSearch

PROFESSIONAL EXPERIENCE

EKHO INC., San Rafael, California

2013-PRESENT

Lead Frontend Application Developer, NodeJS Fullstack Developer, UX/UI Designer

Ekho Inc., is a big data startup that develops a cloud based data aggregation and augmentation platform. As the Lead Frontend Developer I own the user facing portions of our flagship application EkhoFocus, which are written in AngularJS, Sass, and D3. In addition I have been the sole developer and designer of a full stack Node.js application, and several "mini" applications that leverage our API's

- Lead Frontend Developer on our flagship application **EkhoFocus**.
- **UX Designer** and **Lead Full Stack Developer** on 4 smaller applications that leverage our API's.
- Secretary of the Engineering circle, leading **Scrum** and **Tactical meetings** for a team of **7 developers on 2 continents**.
- Responsible for production deploys via **GitHub + Jenkins CI**.
- Tech Stack: AWS, Play Framework, Mongo DB, Redis, ElasticSearch, NodeJS, **AngularJS**, Sass, D3, Gulp.

WEBSIGHT DESIGN INC., Sausalito, California

2008-2013

Lead Frontend Developer, Web/Mobile Designer, Production Manager.

Websight Design Inc. is an established full-service Internet boutique that services over 300 clients across many industries. My role as the only dedicated frontend developer was to collaborate with managers, designers and backend developers, to efficiently produce websites that were pixel perfect across all browsers/platforms. Often my responsibilities included full/partial web/mobile design, client management, and minor backend development.

- Thrived as a **"one person department"**, especially in deadline situations that required high levels of **collaboration** and **flexibility**.
- Lead Frontend Developer for over **100+** websites including **HardRockHotel.com**, **CaboWabo.com**, **Fest300.com**, and many more.
- Leveraged **JavaScript** libraries in combination with the latest **HTML** and **CSS**, to create rich user experiences.

- Maintained over **300+** websites across multiple platforms including **multiple versions of WSD's proprietary platform (LAMP), Wordpress, and Magento.**
- Directly managed clients such as **Yoshis.com, Fortticonderoga.org,** and others.
- **Designed** Web, Mobile and other UI experiences.
- Interfaced with third party agencies and managed backend developers.

BETTER DEAL LLC, San Diego, California

2005-2008

Sponsored Search Coordinator, Web Presentation Engineer, Web Development Engineer.

Better Deal LLC is a very small Internet marketing firm that generates sales leads via sponsored search marketing. My role was to grow and optimize our mortgage and insurance campaigns as well as researching and developing test verticals into new industries such as online dating, photo sharing and small business loans.

- Created and optimized sponsored search campaigns with over **30,000 keywords** and **monthly budget over \$40,000** spanning all major search engines.
- Performed web analytics and large scale campaign modifications via **API access.**
- Designed and developed 5 lead generating websites (**PHP, xhtml, CSS, JavaScript and MySQL**) using Adobe Photoshop / Dreamweaver.
- Actively managed publisher accounts with **Commission Junction** and **Linkshare.**
- Managed content developers and interfaced with account representatives.

EDUCATION

UNIVERSITY OF CALIFORNIA SANTA CRUZ, Santa Cruz, California

Bachelor of Science in Computer Science (graphics), 2005

- Created parametric 3-Dimensional design software.
